

The Nitric Oxide Rescue Plan: 7 Daily Habits to Restore Your Energy, Memory & Blood Flow After 45

Discover the 7 science-backed daily habits that help adults over 45 naturally boost nitric oxide production, improve circulation, and feel decades younger — plus learn why most nitric oxide supplements fail and what actually works.

Why Pills and Capsules Don't Work for Nitric Oxide

Most nitric oxide supplements come in pill form containing L-arginine. But research shows L-arginine loses up to 75% of its potency during digestion. Worse, after age 45, your body struggles to convert L-arginine to nitric oxide at all. That's why you've probably tried nitric oxide supplements before with little to no results.

The MIT Discovery That Changed Everything

MIT scientists discovered that nitric oxide production actually starts in your mouth — not your stomach. The bacteria on your tongue convert nitrates into nitric oxide as the very first step. That's why CircO2 comes in fast-dissolving lozenges. You place one on your tongue, and within minutes it kickstarts nitric oxide production right where it needs to begin.

Clinical Results: 200% Higher Nitric Oxide in 20 Minutes

In clinical testing, CircO2's lozenge method raised nitric oxide levels 200% within just 20 minutes. It also increased blood flow by a staggering 34%. No pill or capsule can achieve these results because they bypass the critical first step that happens in your mouth.

What CircO2 Does for Your Body

CircO2 combines Beet Root Powder (rich in natural nitrates used by Olympic athletes), Hawthorn Berry (enhances nitric oxide absorption), L-Citrulline (superior to L-arginine for those over 45), plus Vitamin B12, Vitamin C, and Magnesium. Together, these ingredients deliver renewed energy and stamina, sharper thinking and recall, healthier blood pressure readings, enhanced mobility and joint comfort, and improved intimacy through better blood flow.

Real Results from Real People

Merlin K., age 76, reported: 'My blood pressure went from 140 over 80 to 110 over 68. This is a big deal.' Sherrolyn E. said: 'This product has increased my energy levels greatly. My mindset has improved and my concentration levels are much better.' Sheila K. shared: 'I've tried many nitric oxide supplements. This one is by far the BEST! It restores blood flow FAST.'
