

The Nitric Oxide Rescue Plan: 7 Steps to Restore Your Youth Molecule in 30 Days

A free guide revealing the 7 daily habits that destroy your nitric oxide levels, and the exact protocol to rebuild them, including foods, exercises, and the one supplement trick that raises NO 200% in 20 minutes.

The Hidden Crisis No One Talks About

By age 70, your nitric oxide levels drop by a staggering 75%. By 80, they're down 85%. This isn't just a number on a lab report. It's the hidden cause behind the fatigue, brain fog, stiff joints, bedroom struggles, and blood pressure issues that millions of adults accept as 'just part of getting older.' It's not. And there's a scientifically proven way to fix it.

Why L-Arginine and Beet Juice Don't Work

Most nitric oxide supplements use L-arginine. Problem? Clinical studies show L-arginine loses up to 75% of its potency during digestion. After age 45, your body struggles to convert it at all. Beet juice and leafy greens? You'd need 2-3 pounds daily for therapeutic effects. And standard pills? MIT scientists found that the first and most crucial step in nitric oxide production does NOT happen in your gut. It happens in your mouth.

The MIT Breakthrough: It Starts on Your Tongue

MIT researchers discovered that nitric oxide production begins with the bacteria on your tongue. These bacteria convert nitrates into nitric oxide, and that's the most important step. That's why CircO2 comes in fast-dissolving lozenges, not pills. Place one on your tongue, and within minutes it kickstarts nitric oxide production. In clinical testing, this method raised nitric oxide levels 200% within 20 minutes and increased blood flow by 34%.

What CircO2 Does for Your Body

CircO2 combines beet root powder for Olympic-level stamina, hawthorn berry to enhance absorption, L-citrulline which is superior to L-arginine for over-45s, plus Vitamin B12, Vitamin C, and magnesium. Together, they create the most complete nitric oxide restoration system available. Users report renewed energy, sharper memory, healthier blood pressure readings, improved intimacy, more restful sleep, and a genuine sense of youth and vitality.

Real People, Real Results

Sherrolyn E. says: 'This product has increased my energy levels greatly. My mindset has improved and my concentration levels are much better.' Merlin K., age 76, reports: 'My blood pressure went from 140 over 80 to 110 over 68. This is a big deal.' Roxane M., age 80, says: 'I'm never without CircO2! I start my day with it.' Over 1,600 verified customers have shared their results.
