

The Nitric Oxide Rescue Plan: 7 Days to More Energy, Sharper Memory, and Better Blood Flow

Discover the 3 critical mistakes that destroy your nitric oxide levels (and how to fix them), the 5 foods that naturally boost production, and a simple morning ritual that can increase your energy in just 7 days. Plus, get an exclusive 20% discount on your first box of CircO2.

The Hidden Crisis Stealing Your Energy and Independence

Every day you wake up feeling more tired than the day before. You struggle to remember names, where you put your keys, or what you were about to say. Your doctor keeps monitoring your blood pressure. You've given up activities you once loved because you just don't have the stamina anymore. And intimacy? That's become a distant memory. This isn't just 'getting older'—this is your body literally starving for oxygen and nutrients because your nitric oxide levels have crashed.

Why Everything You've Tried Has Failed

You've probably tried L-arginine supplements, but clinical studies show it loses 75% of its potency during digestion. You've eaten beets and leafy greens, but you'd need 2-3 pounds daily for real results. You've taken pills and capsules, but MIT scientists discovered that nitric oxide production doesn't start in your gut—it starts in your mouth. The bacteria on your tongue convert nitrates into nitric oxide. That's the first and most crucial step. Pills bypass this entirely.

The MIT Breakthrough That Changes Everything

MIT researchers made a stunning discovery: nitric oxide production begins in your mouth, not your stomach. The special bacteria on your tongue are responsible for converting nitrates into nitric oxide. This is why CircO2 comes in fast-dissolving lozenges. You place one on your tongue, and within minutes it kickstarts nitric oxide production right where it needs to start. In clinical testing, this method raised nitric oxide levels 200% within 20 minutes and increased blood flow by 34%. No pill or capsule can achieve these results.

What CircO2 Does for Your Body

When you restore your nitric oxide levels with CircO2, you experience: Renewed energy and stamina to stay active and pursue your passions. Sharper thinking and recall—remember names and maintain your mental edge. Healthier blood pressure readings that impress your doctor. Enhanced mobility as your joints receive more oxygen. Improved intimacy and performance through better blood flow. More restful sleep and waking refreshed. A sense of youth and vitality as your brain and body receive optimal oxygen.

The 6 Powerful Nutrients in Every Lozenge

CircO2 combines Beet Root Powder for Olympic-level stamina, Hawthorn Berry to enhance absorption, and L-Citrulline (superior to L-arginine for those over 45). Plus Vitamin B12 for energy and nerve health, Vitamin C as a catalyst for nitric oxide production, and Magnesium to relax blood vessels and regulate heart rhythm. Together, these create the most complete nitric oxide restoration system available.
